Technical Skills

Languages: Python, JavaScript(Node.js), Golang.
Frameworks: Django, Flask, FastAPI, Express.
Other: PostgreSQL, Vs Code, Linux (Arch, Ubuntu, Fedora).

Work Experience

2017-present

Ostrovok.ru, Moscow, Russia

CTO, team size: ~80

- Reorganize functional commands to cross functional based on business domains (TTM reduced by 40%).
- Propose design cache storage for hotel offers to scale search (search scaled ~x8).
- Propose openAPI docs, that led to transfer golang projects to gRPC.
- Introduce SLI/SLO/SLA concept for service metrics and alerts.
- By hand: develop storage for search logs (PostgreSQL+S3), integrate Exponea platform.

2015-2017

Ostrovok.ru, Moscow, Russia

Backend developer

- Add a new trigger system to the internal email marketing platform (Django).
- Code tasks for site backend (Django).
- Release management.

2012-2015

Rapida Ltd, Moscow, Russia

Senior engineer

- Develop gateway between companies Rapida Ltd & Contact Payment System with PHP.
- Integrate functional testing for newly created processing modules with Codeception & Jenkins.
- Integrate ELK Stack (Elasticsearch-Logstash-Kibana) for log collection.

Project Experience

Django-db-commnets - <https://github.com/vanadium23/django-db-comments/>

May 2019
